What materials are we made from? Follow the lines to see!

What are we made from?

The average child in the UK uses more than their own weight of paper and card at school every year!¹

Each UK household throws away 500 plastic bottles per year!²

The UK uses 12 billion cans each year. If placed end to end they would stretch all the way to the moon and back!³

Your mission to reduce, re-use and recycle

All the things we buy and use are made from our planet's limited resources. We must stop wasting them to look after our planet.

Your mission is to recycle as many of these items as possible at home and at school:

- Plastic bottles and carrier bags
- Paper and cardboard
- Glass bottles and jars
- Food and drink cartons
- Food tins, drink cans and aerosols
- Plastic containers and food trays

Food waste

You can use the green food waste bin and kitchen caddy to help you in your mission to recycle food waste:

- Eggs and dairy products
- Bread, pasta and rice
- Fruit and vegetables
- Meat, fish and bones
- Plate scrapings

Please note you are currently not able to recycle your food waste if you live in a flat.

Garden waste

You can use the white re-usable sack to help you in your mission to recycle garden waste:

Recycling wheelie bin Green recycling sack Estate recycling bin

You should have one of these recycling containers at home

What are we made from? answers: Plastic - trees, sand, cans - metal.

Your mission to reduce, re-use and recycle

Waste Warriors

Throughout the next week you are challenged to **reduce, re-use and recycle as much as you can**. Keep a record of your good work by filling in the table each day. To help we have given you some examples of the types of things you can do.

At the end of the week add up your scores to find out if you are a true Haringey Waste Warrior.

How many reduce, re-use or recycle actions did you complete in the week?

15-21 actions: Well done! You are a Haringey Waste Warrior! Continue your good work!

8-14 actions: You are well on the way to becoming a Haringey Waste Warrior – keep it up!

Less than 7 actions: You have made a good start, but keep trying and you could soon become a Haringey Waste Warrior!

Example of Reduce:

I reduced my food waste by putting my leftover chicken from last night's dinner on a pizza instead of throwing it away.

Example of Re-use:

I re-used my plastic drinks bottle by refilling it instead of buying a new one.

Example of Recycle:

I recycled my drinks can by putting it in the recycling bin.

Colour me in

Days of the week	I reduced my waste by:	I re-used my waste by:	I recycled my waste by:

Did you know?

In the UK every year, each person throws away 7 times their body weight in rubbish¹ of which a whopping two thirds can be recycled!
